

RETHINKING PLASTIC

STARTUP PLASTIC SURGERY / 5th Season

In cooperation with **Climate Innovation Community**, we have been developing **incubation, startup and education programs related to climate change for 9 years**. Our core competencies include **business development, community building, the agility of contact networks**, as well as mentoring and coaching in the following areas: **climate innovation, circular economy**, food industry innovations, **waste management**, energy transition, water management systems, **sustainable urban solutions**. We believe that fighting climate change can be achieved by commercially viable solutions. In the course of our **Greentech business development programmes**, we provide ongoing assistance in shaping startup ideas into **economically viable businesses** in the initial stages. Since 2014 we have developed and delivered dozens of **greentech startup programmes** to support idea owners to **transform their greentech ideas into climate-positive businesses**.

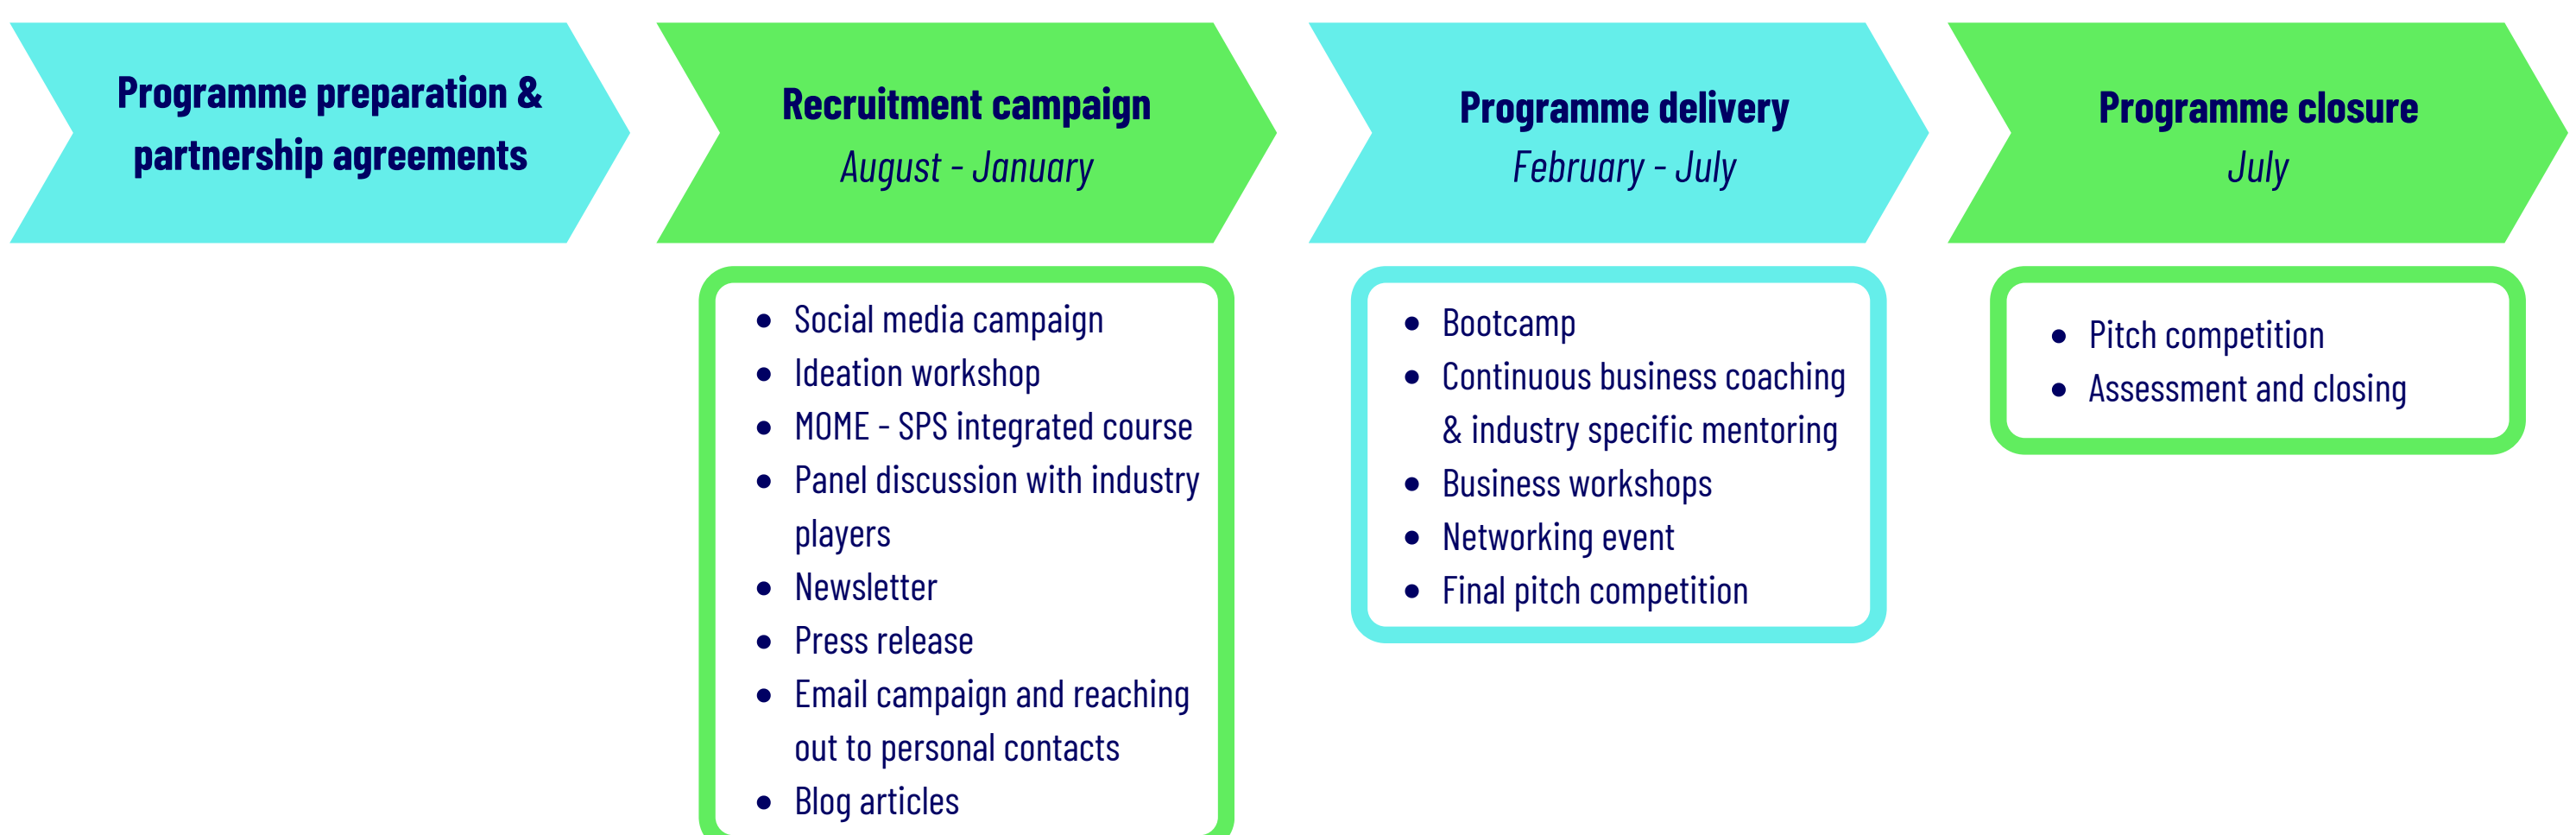

Startup Plastic Surgery

- The **first startup programme in Hungary** which focuses on **fighting against climate change through a complete life cycle recognition of plastic**.
- We launched the programme to **support motivated innovators who have a feasible solution for the environmental and health problems caused by plastic**.
- Content of the **4-month long incubation**: business coaching sessions and industry specific consultations, business workshops, networking events, final pitch competition.
- Participating teams **transform their early-stage ideas into market-ready enterprises**.
- Startups meet **local industry players who give them constructive feedback** at our **networking event**.
- Our final pitching event in 2021 was part of **PLANET Budapest** sustainability expo and summit. **Tom Szaky** is a jury member every year.

Startup Plastic Surgery in numbers

- **50+ teams applying each year** and **10 best teams selected** to the programme every year.
- **12 business coaches** and **12 industry-specific mentors** guiding the startups
- **10+ industry mentors** participating in the **networking event**
- **11 industry-specific** and **5 financial sponsors** supporting the programme
- **10 teams** received fast-track **investment opportunity** from Hiventures and other prizes
